<b>Total</b>			

You are allowed to track up to 25 vehicles for each SAT-TRAK installed.  
 If your class of vehicles is up to 50 or more vehicles, the software will work just fine, but your download & update times will be longer. We recommend tracking 25 Vehicles or under.  
 If your class is small, you may add another class or two to come up to the 25 vehicle limit, if you like.  
 If your class is larger than 25 vehicles there is no extra charge.  
 The first set of 25 vehicles is free. The second set of 25 vehicles, or any portion there of, is \$50 more.  
 The third set of 25 vehicles, or any portion there of, is another \$50 and so on for every set of 25 thereafter.  
 20 Minutes of free tech support is available. Any minutes over the first 20 is billed at \$50 per hour.
